Ms. Deeksha

Mrs. Sakshi

It's a pleasure today that I am a part of reflections. I would like to share my feelings regarding communication. In communication even more important than knowledge is the life of emotion.

We can not communicate well without consciously responding to our feelings as well as to those of others.

We must first observe the behaviour of the other person his gestures and his facial expression. Feelings may be grouped as happy, sad, Angry, Frightened and confused and they may be ranked as strong feeling. So one should keep emotion of others in his mind when ever he wants to communicate with any person. This is exactly what is taught to the children at HPS to keep their emotions well in control. Best Wishes

PRINCIPAL MESSAGE

Education is a never ending journey. It is about learning for self and acquiring the wisdom of life. True education is allowing the child to learn unlearn and relearn so as to achieve perfection and become a fine human being. Children can be moulded into person of excellence in a safe and supportive, positive learning environment.

The process of shaping child's flexible mind to become responsible begins in formative years. From academic to co-curricular activities, innovation, experience, perseverance and never to die spirit is imbibed in the heart of every student which makes them good and brilliant human beings.

I am happy to be a part of Journey of HPS school progressing towards higher horizon. It has been fostering value based education with modern teaching learning methods and has produced generation of well informed, emotionally strong people who are well settled in their professional areas.

HPS family considers parents as its rightful copartner in its endeavor to impart good quality education. We encourage participation of parents, value their feedback and appreciate their zeal to reinforce our school ethos at home.

"Focus on the Journey not the destination. Joy is found not in finishing the activity but in doing it."

Dr. Anshika George
Principal
